To Our Friends and Patrons

I have just returned from the markets, where I bought a good stock of pleasure and service vehicles, harness, etc. (regardless of the staggering advances), this being our only hope to furnish our customers, due to the fact of every factory that I visited being further behind with their orders than ever before during their existence. If you think for one minute that the "buggy or horse" is a back number "forget it", as one of the buggy factories that I visited build about 80,000 to 90,000 vehicles per year, and they were 15,000 vehicles behind on January 1st, 1920. Our vehicle business was the largest during 1919 than ever before by a large per cent.

No, regardless of the advance on future stock and that that is in our three places of business at advance prices, we have decided to let our present prices remain for a short while to clean up for the fifteen or more car loads coming in daily. Am writing this to give every one of our friends an equal chance. It is up to you to take advantage of this, and I trust you will, as we mean what we say, as the new higher price list is already being gotten up.

Thanking our customers for past support and confidence in us, and soliciting their further patronage at either of our three places of business, I beg to remain,
